Forgive me Anita, I'm not sure who is the best person to be encumbered :)

No problem! I wonder if all those images are still in use since only QGIS.ico has been updated in
https://github.com/qgis/QGIS/tree/master/ms-windows/Installer-Files

Jürgen, could you please let me know which images need to be updated, if any?

At least the WelcomeFinishPage.bmp is displayed.

The side image is fixed. Seems just two small ones are missing now:

ms-windows/Installer-Files/InstallHeaderImage.bmp and ms-windows/Installer-Files/Install_QGIS.ico
ms-windows/Installer-Files/UnInstallHeaderImage.bmp

They are visible in the:
 - file icon
 - window titlebar icon
 - and inline in the progress window.
