QGIS Application - Bug report #18016
Layer sometimes appears modified without editing data

2018-02-01 10:21 AM - Daan Goedkoop

Status:	Closed			
Priority:	Normal			
Assignee:	Alessandro Pasotti			
Category:	Attribute table			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25912	

Description

Sometimes when you click a layer to enable editing, it appears as modified, even without editing any data.

Steps to reproduce:

1. add the attached test layer to a new project

2. open the attribute table

3. enable editing

4. disable editing (the question is asked to save the modifications, even though nothing has been modified)

Possible solution: https://github.com/qgis/QGIS/pull/6191
