QGIS Application - Bug report #18049
no values in merge layers log

2018-02-05 09:43 AM - Ewa Śliwińska

Status:	Closed			
Priority:	Low			
Assignee:				
Category:	Vectors			
Affected QGIS version:	2.18.16	**Regression?:**	No	
Operating System:	Windows 10	**Easy fix?:**	Yes	
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25945	

Description

I'm using "Merge vector layers" from Vector/Data Management Tools and probably doing something wrong, because I receive following message:

> *{} field in layer {} has different data type than in other layers.*

However, I guess that there should be something instead of {} here - that doesn't say too much about details :)
