QGIS Application - Bug report #18060
processing: raster calculator doesn't work, error thrown

2018-02-08 11:18 AM - Mathieu Pellerin - nIRV

Status:	Closed		
Priority:	High		
Assignee:			
Category:	Processing/Core		
Affected QGIS version:	master	**Regression?:**	Yes
Operating System:		**Easy fix?:**	No
Pull Request or Patch supplied:	No	**Resolution:**	fixed/implemented
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	25956

Description

On latest qgis master builds, the processing raster calculator doesn't work, and this error is triggered:

    raise QgsProcessingException(self.tr("No layers selected"))

I'm not sure what's wrong here, since a layer is selected.
