

QGIS Application - Bug report #18084

Inconsistent titles in file save dialogs in QGIS 3

2018-02-13 07:31 AM - Alister Hood

Status:	Closed	
Priority:	Low	
Assignee:	Alessandro Pasotti	
Category:	GUI	
Affected QGIS version:	master	Regression?: Yes
Operating System:	Ubuntu	Easy fix?: No
Pull Request or Patch supplied:	Yes	Resolution: fixed/implemented
Crashes QGIS or corrupts data:	No	Copied to github as #: 25980
Description		
<p>The attached screenshot shows (for both 2.18.16 and master) the titles of the main save as dialogs that you get when you right click on a raster or vector layer and choose "Save as", and the titles of the file chooser dialogs that you get when you click the "..." or "Browse" button in the main save as dialogs.</p> <p>The new "Select layer as" wording for vector files is clearly a mistake.</p> <p>But was the intention to leave it as "Save layer as..." and change the raster wording to also say "Save layer as..."?</p> <p>Or was the intention to change the vector wording to "Select output file"?</p> <p>I would suggest the former, but I haven't had a good look to see what is used in other dialogs, or if any of the UX manuals say anything relevant.</p>
