

QGIS Application - Bug report #18091

Processing plugin doesn't work

2018-02-13 04:43 PM - Diogo Caribé

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Unknown	
Affected QGIS version:	master	Regression?: No
Operating System:	Ubuntu 16.04	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: invalid
Crashes QGIS or corrupts data:	No	Copied to github as #: 25987
Description		
<p>My qgis 2.99 ec86cb the processing tool box (plugin) doesn't open.</p> <p>There is one message every time I run it: WARNING Plugin processing : The plugin will be disabled because it crashed QGIS during last startup. Please report an issue and re-enable the plugin when the problem has been solved.</p> <p>Vector and Raster options from main menu don't have any option to choose. When I click on them nothing happens.</p> <p>This problem has been occurring after updating. When I installed, it was working well.</p> <p>I reinstalled it, however the problem has continued.</p> <p>It is the second time that this problem has happened with me. The first time I reinstalled Linux and the problem did not appear.</p> <p>I am using Linux Mint 18.3, Ubuntu 16.04.</p>

- Resolution set to invalid
- Status changed from Open to Closed

Just go into plugin settings and reenable processing.
