QGIS Application - Bug report #18147

[Processing Modeler] Clicking algorithm Help button from within Processing modeler fails to find the right page

2018-02-19 02:30 PM - Harrissou Santanna

Status:	Closed			
Priority:	Normal			
Assignee:	Yves Jacolin			
Category:	Documentation and Help			
Affected QGIS version:	master	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	fixed/implemented	
Crashes QGIS or corrupts data:		**Copied to github as #:**	26040	

Description

Open the Processing modeler dialog

Double-click any algorithm

From the alg dialog, click the Help button: 404 NOT FOUND

The same alg from the Processing toolbox would/should have opened the right documentation page

Giving a look to the constructed URL, there's a missing "#" character after "html" to get the anchor, hence the "unfound" page (ie, https://docs.qgis.org/testing/en/docs/user_manual/processing_algs/qgis/cartography.htmltopological-coloring instead of https://docs.qgis.org/testing/en/docs/user_manual/processing_algs/qgis/cartography.html#topological-coloring).
