

QGIS Application - Bug report #18164

Can't get the Clipper Tool to Work

2018-02-21 01:30 PM - Bryony Gale

Status:	Closed	
Priority:	High	
Assignee:		
Category:	GDAL Tools	
Affected QGIS version:	2.18.16	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 26055
Description		
<p>Hi,</p> <p>I'm new to QGIS however have some experience with ArcGIS, I can't get the clipper tool to work, I'm trying to do a clip using a mask layer, but keep getting this error:</p> <p>ERROR 1: Did not get any cutline features.</p> <p>Can someone tell me what I'm doing wrong? I'm teaching myself to use the software.</p>

- Status changed from Open to Feedback

Please add sample data and exact steps to replicate.

Also the tools in the "raster" menu (aka gdal tools) are unmaintained, test with the equivalent tool in the Processing toolbox.
