Hi Bob.

Please provide more information.

Because in QGIS 2.18.16 and in QGIS 2.14.22 is working.

Did you install some 3rd part plugin?

Regards

Here is the error I receive on QGIS startup on my machine. Windows 7.

'Python error: Couldn't load plugin 'MetaSearch' due to an error when calling its classFactor() method. See message log (Python Error) for more details.

If you need additional information, please let me know.
