

QGIS Application - Bug report #18256

Encoding issue with aboriginal serif font(?)

2018-02-28 01:07 AM - Jennifer Walkus

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Labelling	
Affected QGIS version:	2.18.17	Regression?: No
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 26147
Description		
<p>How do I install aboriginal serif font into qgis. I've installed it. Rebooted the computer. I can select it. It shows up when i edit the label. But as soon as I go to save changes it drops it. i.e. Wuikala shows up as W?uik?ala</p>

- Subject changed from aboriginal serif font to Encoding issue with aboriginal serif font(?)

Likely you have to choose the proper encoding in the properties of your vector layer. Please check and leave feedback. Thanks.

Attaching the font and the data you are using would also be useful for us to determine if is really a qgis issue.
