

QGIS Application - Bug report #18266

Browser panel does not show same folder icons in two different user profiles

2018-02-28 12:00 PM - Harrissou Santanna

Status: Closed	
Priority: Normal	
Assignee:	
Category: Browser	
Affected QGIS version: 3.0.0	Regression?: No
Operating System: Windows 10	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: fixed/implemented
Crashes QGIS or corrupts data: No	Copied to github as #: 26157
Description	
<p>I run QGIS with the default user profile and the Browser panel show some colourful icons for drives and Project Home. From that instance, I launch another user profile and it turns that folders do not have same icons (see the screenshot). Any idea what could be behind this difference: bug or something i miss with user profile things?</p>	

History

#1 - 2018-10-04 12:25 AM - Nyall Dawson

- Resolution set to fixed/implemented
- Status changed from Open to Closed

Should be fixed in master -- we use custom icons now.
