QGIS Application - Bug report #18362
Rotate tool doesn't work for newly created points in transaction group context

2018-03-06 10:24 PM - Regis Haubourg

Status:	Open			
Priority:	Normal			
Assignee:				
Category:	Digitising			
Affected QGIS version:	3.3(master)	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:	No	**Resolution:**		
Crashes QGIS or corrupts data:	No	**Copied to github as #:**	26252	

Description

When creating new points with PostgreSQL transaction groups activated, it is impossible to select that point with the rotate tool.

Just moving the point with node tool will restore that feature.

So I guess there is something not wired correctly between the snapping index and the rotateTool

QGIS3, master and QGIS 2.18.17 are concerned

History

#1 - 2018-10-23 11:48 AM - Regis Haubourg

- Affected QGIS version changed from 3.1(master) to 3.3(master)

Still true in recent master
