Description

In trying to port over models from modeller 2.x to 3 I have found that the output of the "Save Selected Features" algorithm is no longer available as input to another process.

- *Regression? changed from No to Yes*

- *Priority changed from Normal to High*

- *Subject changed from QGIS 3.0 EAR Processing Modeler to output of the "Save Selected Features" algorithm is no longer available as input to another process*

I assume is a bug, but there were many changes in Processing so maybe is by design. I'll investigate.
