

QGIS Application - Bug report #18396

Feature Attributes box overlap

2018-03-09 10:38 AM - Frederik Fanger

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Forms	
Affected QGIS version:	3.0.0	Regression?: Yes
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: no timely feedback
Crashes QGIS or corrupts data:	No	Copied to github as #: 26286
Description I've been using relations with polygons and tables, as an 1-N relation to have multiple features of the same kind on the same selected geometry. No issues in 2.18.16, but with the recent update to 3.0 a problem occurred. When using "Identify feature" the menus in feature attributes are collapsed and on top of each other. I've found no way to expand the menus.		

History

#1 - 2018-03-09 11:07 AM - Giovanni Manghi

- Regression? changed from No to Yes
- Easy fix? changed from Yes to No
- Priority changed from Normal to High
- Category changed from Relations to Forms

#2 - 2018-10-23 02:10 PM - Regis Haubourg

- Status changed from Open to Feedback
- Assignee deleted (Matthias Kuhn)

Could you specify which OS is affected. Could you also try if latest 3.2 and master are affected ?

#3 - 2018-12-28 12:12 PM - Paolo Cavallini

Please give us feedback.

Thanks.

#4 - 2019-01-14 11:54 PM - Nyal Dawson

- Resolution set to no timely feedback
- Status changed from Feedback to Closed
