QGIS Application - Bug report #18399
Meters at scale

2018-03-09 05:47 PM - Alexey T

Status:	Closed			
Priority:	Normal			
Assignee:				
Category:	Symbology			
Affected QGIS version:	3.0.0	**Regression?:**	No	
Operating System:	Win7x64	**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**	not reproducable	
Crashes QGIS or corrupts data:		**Copied to github as #:**	26289	

Description

After selecting "meters at ascale" units in style manager, QGis becomes very laggy.
QGis 3.0 x64

History

#1 - 2018-03-13 12:24 AM - Nyall Dawson

- Status changed from Open to Feedback

I can't reproduce. Can you post exact steps to replicate?

#2 - 2018-08-16 02:23 PM - Giovanni Manghi

- Resolution set to not reproducable

- Status changed from Feedback to Closed

Closing for lack of feedback.

#3 - 2018-11-30 07:33 PM - Daniel Krüger

- File Böschung_3m.qml added

Please find attached a style which causes 100% CPU load for some seconds whenever I open or change the properties of a layer with this style.

QGis 3.4.2-Madeira under Xubuntu 18.04.1.
