Pull Request or Patch supplied:			**Resolution:**	duplicate
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	26357

Description

Labels for polygons appear in layout when map is not rotated.

When I rotated the map 35 degrees [Item properties |> Main Properties |> Map rotation], labels did not appear in layout.

Tested with various angles of rotation, >10deg results in not label, greater than 0 to 10 degrees results in the labels being shifted drastically out of place.

Hmmm.
