

QGIS Application - Bug report #18483

Crash on opening a .qgs project in a second instance of QGIS 3.0

2018-03-19 05:14 PM - Roy Nicol

Status:	Open	
Priority:	Low	
Assignee:		
Category:	Project Loading/Saving	
Affected QGIS version:	3.0.0	Regression?: No
Operating System:	Windows 10 Pro	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 26371

Description

User Feedback

Dear QGIS Developers,

This crash happened when I opened a .qgs project in a **second** instance of QGIS 3.0.

The first instance had been operating normally. The second instance launched normally, but crashed when I actually opened the other project I wanted to work in.

This report is supplied for your information and there is no need to follow up with me, unless you need any further information. In that case please don't hesitate to contact me. Thank you.

Sincerely,
Roy_N
