

QGIS Application - Bug report #18572

qgis doesn't save features added to a layer when source fields are deleted for a second time

2018-03-29 11:10 AM - A B

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Editing	
Affected QGIS version:	3.0.0	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 26460
Description		
<p>see the video - after creation of layer, I've added features and successfully saved them, yet when repeating the workflow, features are not saved (lost forever - no change in filesize)</p> <p>why do I do it this way? I want to draw the points quickly - without being forced to enter attributes for every single feature</p> <p>tested on 3.0.0 and 2.14.9</p>
