

QGIS Application - Feature request #18585
Column widths in Relations table (Project properties) should adapt automatically to the content

2018-03-29 06:08 PM - Manuel K

Status:	Open	Resolution: Copied to github as #: 26473
Priority:	Normal	
Assignee:		
Category:	GUI	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
<p>It would be great if the widths of the columns in the Relations table would adapt automatically to the content when opening the window. Or at least, the once manually adjusted widths should be preserved when exiting the window.</p> <p>Currently you have to adjust most of the columns every time so that all the content is visible.</p>
