

QGIS Application - Bug report #18615

Resize layout to content does not work

2018-04-03 02:46 PM - Harrissou Santanna

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Map Composer/Printing	
Affected QGIS version:	3.1(master)	Regression?: Yes
Operating System:		Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	No	Copied to github as #: 26503
Description		
<p>Create a multi page print layout</p> <p>Add items on different pages</p> <p>In the Layout panel, click on the Resize layout button: instead of all pages being merged and become the miniaml bounding box of tghe items, all the items are instead moved to what was the first page, meaning that most of the times, items just overlap.</p> <p>The corresponding function in 2.18 works well.</p>
