

## QGIS Application - Bug report #18638

### Clearing a data-defined replaces expression by 'null' text instead of being empty

2018-04-05 07:12 AM - Harrissou Santanna

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Expressions	
<b>Affected QGIS version:</b>	3.1(master)	<b>Regression?:</b> Yes
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 26526
<b>Description</b>		
<p>Add a data-defined expression to a layout picture item (i was there when i found the issue but should be the same for all DD buttons). Now click the DD button and select <b>Clear</b> Again select the DD button, Edit The expression builder is filled with a <b>NULL</b> text you need to erase before writing the new expression. It would be better to have the widget empty, as it's in 2.18.</p>
