QGIS Application - Bug report #18672
QGIS Crashing when Importing DEM data

2018-04-09 05:09 PM - Vincent Racine

Status:	Closed			
Priority:	High			
Assignee:				
Category:	3D			
Affected QGIS version:	3.0.0		**Regression?:**	No
Operating System:	Microsoft		**Easy fix?:**	No
Pull Request or Patch supplied:	No		**Resolution:**	not reproducable
Crashes QGIS or corrupts data:	Yes		**Copied to github as #:**	26560

Description

Good morning,

I am trying to import DEM data and QGIS keeps on crashing every time I place "Disc Image File", which seems to be the only data it reads (doesn't read .ige, .rrd, or .rde). My goal is to create a 3D model with the 3D model view based on DEM terrain data.

Please let me know if you have any solutions,

Vincent
