

QGIS Application - Bug report #18713

Virtual layer with spaces in layer name not created

2018-04-12 01:06 AM - Nikolay Lebedev

<b>Status:</b>	Open	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Virtual Layers	
<b>Affected QGIS version:</b>	3.0.0	<b>Regression?:</b> No
<b>Operating System:</b>		<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 26600
<b>Description</b>		
If you try to create a virtual layer from existing project layer that has spaces in layer name (like "My layer") you'll receive an error when pressing `Check` button in 'Creating of Virtual layer' dialog. Layer won't be created. Dropping spaces gives positive result.

No error here - are you enclosing the table name in double quotes? Can you post more info?

Virtual layer is being chosen from layer list and doesn't have quotes by default. Check button returns an error (see screenshot). Adding double quotes does help, but it's not an obvious solution.
