

QGIS Application - Bug report #18716

Crash when using a geopackage and clicked on float selected record to top of attribute button.

2018-04-13 02:59 AM - Andrew Mitchell

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Attribute table	
Affected QGIS version:	3.0.0	Regression?: No
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution: no timely feedback
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 26603

Description

User Feedback

I reduced the number of visible fields in the attribute table using the dialog. I then selected a polygon from a land parcels layer using the draw polygon select tool. To find the selected polygon, I clicked the float selected records to the top button. QGIS crashed. QGIS 3.0.1.

History

#1 - 2019-01-08 06:10 PM - Julien Cabieces

- Status changed from Open to Feedback

Cannot reproduce the issue with 3.4, do you still had the problem?

If yes, could you provide some test data

#2 - 2019-02-24 10:16 AM - Giovanni Manghi

- Resolution set to no timely feedback

- Status changed from Feedback to Closed
