Easy fix?:	No	**Copied to github as #:**	26672

Description

In print layout window, creating map items increments their ID, making it unique by default, eg, "Map 1", "Map 2", "Map 3"...
It could be nice to have that for all types of items, avoiding headaches when looking in the Items panel for a particular table/legend/scale bar/group... in a crowded and multipage print layout.
