

QGIS Application - Bug report #18805

[Layer properties] Text on symbols group not updated when the layer symbology changes are applied

2018-04-25 07:17 PM - Harrissou Santanna

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Map Legend	
Affected QGIS version:	3.1 (master)	Regression?: No
Operating System:		Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 26691
Description		
Open layer properties in symbology tab, apply a new symbology Click Apply to render the changes in the map canvas and layers panel Enable the Legend panel: symbols in "Text on symbols" group are not updated, still showing the old setting You need to reopen the vector layer properties dialog before the symbols get update.
