QGIS Application - Bug report #18808

Expression builder dialog shows by default an output preview value (123232)

2018-04-25 10:21 PM - Harrissou Santanna

Status:	Closed			
Priority:	Normal			
Assignee:	Nathan Woodrow			
Category:	Expressions			
Affected QGIS version:	3.1(master)	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	26694	

Description

Open an expression builder dialog

Bottom left: *preview output: 123232* is shown.

This information does not make sense imho and becomes misleading/confusing when you are expecting a value that is not integer (eg open a color setting data-defined override expression dialog: it does not match the expected format information just above).
