QGIS Redmine (QGIS bug tracker) - Bug report #18868
Using extract by expression in graphical modeler changes column values

2018-04-27 06:05 PM - Wendee Augustiro

Status:	Closed
Priority:	Normal
Assignee:	
Category:	Any
Pull Request or Patch supplied:	No

Description

Used extract by expression on an imported tsv file. The result was accurate except the last few digits of the ID numbers in one column were changed in the attribute table.

QGIS version 2.18.15
