

## QGIS Application - Bug report #18876

### Bad/malformed command string when launching TauDem script (2.18.17)

2018-04-29 12:02 PM - Oki Sir

<b>Status:</b>	Closed	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	Processing/Core	
<b>Affected QGIS version:</b>	2.18.17	<b>Regression?:</b> No
<b>Operating System:</b>	Windows	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> duplicate
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 26708
<b>Description</b>  When i try to launch a TauDem script, the corresponding command string is malformed (i think that path parsing/escaping is wrong, because there is only a double quote at the end of the command string, see attachment).  Instead if I try to launch the script from the command line, with correct parsing/escaping all works fine.  Thanks in advance and sorry for possible bad category coiche
