QGIS Application - Bug report #18910
Geopackage converts 8 bit raster in 4 band rgb

2018-05-04 04:52 PM - matteo ghetta

Status:	Open			
Priority:	Normal			
Assignee:				
Category:	Data Provider			
Affected QGIS version:	3.1(master)	**Regression?:**	No	
Operating System:		**Easy fix?:**	No	
Pull Request or Patch supplied:		**Resolution:**		
Crashes QGIS or corrupts data:		**Copied to github as #:**	26742	

Description

8 bit (256 greyscale) rasters are converted in 4 bands rgb images during the importing in an existing geopackage. This slows down the loading and all related properties of the layer. In attach a 8 bit image
