Description Would it be possible to include an option to use point symbols with a rotation (similar to data defined alignment for labels)? Thanx hannes		

History

#1 - 2007-07-21 09:13 PM - Tim Sutton

Changed to minor under the following scheme:

- blocker - bugs that should block the release. Since we are going to release pretty much 'come what may' I would like no bugs
- allocated to this category without consultation with me and / or PSC
- critical - bugs that cause the application to crash or corrupt data
- major - application features that do not function at all
- **minor** - features that function but imperfectly e.g. labels placing incorrectly
- trivial - gui useability issues or small issues with the documentation, install notes etc.

#2 - 2007-12-27 12:40 PM - Magnus Homann

- Status changed from Open to In Progress

Working on this in render branch

#3 - 2008-01-11 12:14 AM - Magnus Homann

- Resolution set to fixed
