Crashes QGIS or corrupts data:	No	Copied to github as #: 26850
Description		
<p>I have many toolbars enabled in QGIS and I reorganize them so that from four rows by default, I only have two rows of tools (hence, more place for map canvas). But each time i open QGIS, the toolbars are moved back to the four rows placement instead of staying where i placed them. Very annoying!</p>
