QGIS Application - Feature request #19056
Add support for grouping components in a processing model

2018-05-29 12:04 PM - Magnus Nilsson

Status:	Closed		
Priority:	Normal		
Assignee:			
Category:	Processing/Modeller		
Pull Request or Patch supplied:	No	**Resolution:**	duplicate
Easy fix?:	No	**Copied to github as #:**	26886

Description

Add support for grouping components. Different parts of the model might might have different focus, such as transforming geometries, fixing attributes or doing calculations. I think it could help usability if I could group (in a visual box?) or colour the components accordingly.
