

QGIS Application - Bug report #19090

Inability to resize columns in 'handle bad layers' dialogue box

2018-06-01 09:51 PM - Simon Dedman

<b>Status:</b>	Open	
<b>Priority:</b>	Normal	
<b>Assignee:</b>		
<b>Category:</b>	GUI	
<b>Affected QGIS version:</b>	3.0.3	<b>Regression?:</b> No
<b>Operating System:</b>	Win10	<b>Easy fix?:</b> No
<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b>
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 26920
<b>Description</b>		
<p>One can resize the handle bad layers box as a whole by dragging the edge, although double clicking the toolbar fills the screen vertically but not horizontally, peculiarly.</p> <p>However one cannot resize the columns within the dialogue box, meaning it can be impossible to see the names of the layers. See attachment.</p>
