

QGIS Application - Bug report #19105

QGIS crashed when reverting the project

2018-06-04 01:47 PM - Harrissou Santanna

Status: Closed	
Priority: Normal	
Assignee:	
Category: Project Loading/Saving	
Affected QGIS version: 3.1(master)	Regression?: No
Operating System:	Easy fix?: No
Pull Request or Patch supplied: No	Resolution: not reproducible
Crashes QGIS or corrupts data: Yes	Copied to github as #: 26935

Description

User Feedback

I made changes to a projet and click on Project--> Revert in order to get initial state and, after some freeze, kaboom!!!
I don't know if it's related but i think i had some layers that were being edited.
I vainly tried to reproduce the crash but given that i had saved the backtrace, better share than hide... and you better understand those lines than me.
Hope that helps.
