

QGIS Application - Feature request #19108
[Diagrams] data defined start angle should also allow text

2018-06-04 06:34 PM - Harrissou Santanna

Status:	Open	Resolution: Copied to github as #: 26938
Priority:	Normal	
Assignee:		
Category:	Diagrams	
Pull Request or Patch supplied:	No	
Easy fix?:	No	
Description		
In Layer Properties dialog, Diagrams --> Rendering tab, the "start angle" drop-down list shows values like 'Top', 'Bottom', 'Right', 'Left' but its data-defined widget only allows numeric values (0-360°). It would make some consistency to have this widget allow the values in the combobox

I actually think this fix should be the opposite - the normal start angle combo box should be changed to a spin box allowing users to enter any angle.

Agreed, indeed.
