

QGIS Application - Bug report #19119

Crash when trying to merge features

2018-06-05 09:46 PM - Antoine Lafranchis

Status:	Closed	
Priority:	High	
Assignee:		
Category:	Digitising	
Affected QGIS version:	3.0.3	Regression?: Yes
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch supplied:	No	Resolution:
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 26949

Description

User Feedback

The merge selected features function in the advanced digitizing toolbar doesn't work.
It only happens with the style as in the attached project: the features of the same geopackage layer can be merged without any issue on a new project. However when I copy paste the style from the original project, merging features becomes impossible and QGis crashes instead.
