Description

I've just attempted to upgrade from 3.0.0 to 3.0.3, now when ever i open QGIS I get the splash screen which gets to "QGIS Ready!" then the crash screen appears.

I upgraded by uninstalling 3.0.0 and downloading and installing 3.0.3 from the QGIS website. I still have 2.8.6 installed.

History

#1 - 2018-06-13 03:10 PM - Steven Chetwynd

This Issue seems to be caused by me changing from 32bit to 64bit versions of QGIS, I've installed 3.0.3 32bit and its working.

I believe this is still an issue as it is unexpected behaviour.
