

QGIS Application - Bug report #19183

.MDB not opening even when adding Values on Enviroment

2018-06-12 08:04 PM - Neil Robin Corrales Montenegro

Status:	Open	
Priority:	Normal	
Assignee:		
Category:	Vectors	
Affected QGIS version:	3.0.3	Regression?: No
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 27012

Description

I tried opening some files from a Geology Map, but the .mdb file does not open properly, i added the values:
The names and the values of the variables are:

variable name: OGR_SKIP
value: ODBC

variable name: PGEO_DRIVER_TEMPLATE
value: DRIVER=Microsoft Access Driver (*.mdb, *.accdb);DBQ=%s

note that there is only one percent sign in the value of PGEO_DRIVER_TEMPLATE variable

but it still is not opening, even change on qgis.bin , im using qgis 3 and 2.18,
