QGIS Application - Bug report #19199
regression: vector layer legend symbol / children (i.e. rules) aren't shown when in group

2018-06-15 12:44 PM - Mathieu Pellerin - nIRV

Status:	Closed			
Priority:	High

Affected QGIS version:	3.1(master)		**Regression?:**	Yes
Operating System:			**Easy fix?:**	No
Pull Request or Patch supplied:			**Resolution:**	
Crashes QGIS or corrupts data:	No		**Copied to github as #:**	27028

Description

I've just noticed that QGIS master (what'll become 3.2) suffers from the following regression: upon project load, vector layers that are children of groups do not have legend symbols (i.e., the default vector geometry icon is used instead of the symbol), and layers' children (for e.g. rules in the rule-based renderer) are also missing.

Steps to reproduce

1. Load the attached project
2. Note the absence of legend symbol and children in the layers panel
