<b>Pull Request or Patch supplied:</b>	No	<b>Resolution:</b> invalid
<b>Crashes QGIS or corrupts data:</b>	No	<b>Copied to github as #:</b> 27070
<b>Description</b>		
<p>I have downloaded and installed the latest version of QGIS v3.0.3 but the plugins,</p> <ol style="list-style-type: none"><li>1.Crayfish</li><li>2.Profiletool</li><li>3.Tuflow</li></ol> <p>are not working on the latest version. I just checked the QGIS plugin page for updated plugins but was not able to find any compatible versions.</p> <p>Are there any compatible versions of plugin available. If yes, Kindly let me know where i can find the plugins.</p> <p>Thank you.</p>		

#### History

- Status changed from Open to Feedback

AFAIK, Crayfish for QGIS 3.x is not released yet. For more information, please contact its authors: <https://www.lutraconsulting.co.uk>

The two other plugins you should find in the Plugin manager:

1. Profile tool 4.1.1
2. TUFLOW 2.1

##### #2 - 2018-06-22 12:19 PM - Martin Dobias

- Resolution set to invalid

- Status changed from Feedback to Closed

Closing this ticket as it is not a QGIS bug - the plugins are made by third parties.

Crayfish for QGIS 3 is in the works, it will be most likely available with QGIS 3.4.
