

QGIS Application - Feature request #1925  
GDAL raster import does not see \*.dt1 or \*.dt2 DTED files

2009-09-11 11:41 AM - DRNewcomb -

Status:	Closed	
Priority:	Low	
Assignee:	nobody -	
Category:	GUI	
Pull Request or Patch supplied:		Resolution: fixed
Easy fix?:	No	Copied to github as #: 11985
Description		
GDAL seems to support DTED files with DT1 & DT2 extension but the QGIS file extension selection filter only shows files with a DT0 extension. The filter should be modified to show and allow selection of files with DT1 and DT2 extensions.		
Workaround: Changing file name extension to DT0 seems to work.
