Description

Hi all,

I tried to add a new field using field calculator in 2.18.21 but it comes out with an error box

"impossible to add a new field"

if I add the field from "add field" button it works fine

I attach a scheenshot

best regards

Sorry,

I miss to flag regression

#2 - 2018-06-27 04:09 PM - Giovanni Manghi

- Regression? changed from No to Yes

Confirmed here (just seen it today in the morning).

Adding a field beforehand from the layer properties works, then it can be filled with the field calculator.
