QGIS Application - Feature request #19286
[Processing] Set default distance values coherent with meters

2018-06-27 04:39 PM - Harrissou Santanna

Status:	Open		
Priority:	Normal

Category:	Processing/GUI		
Pull Request or Patch supplied:	Yes	**Resolution:**	
Easy fix?:	No	**Copied to github as #:**	27114

Description

Depending on the algorithms (eg, create grid, snap points to grid, buffer...), the distance or spacing default can be 0.001, 1, 10 or ...
This does not sound really coherent as working with 0.001m in QGIS is rare and working with 10 degrees... well.

It could be nice to either populate the default depending on the project CRS units or homogenize the values on a single unit (my preference goes to meter units)
