Revision 57fb4ef2 - 2018-07-04 01:45 PM - Rudi von Staden

Add 'not selected' option for optional layer parameters in processing model view

Fixes #19329 (<https://issues.qgis.org/issues/19329>)

Optional layer parameters in processing algorithms used in the graphical modeler add an empty string as the default parameter value, which can raise an exception during algorithm execution. This update replaces the default empty string with a default 'Not selected' option.
