## Description

--------------------------

QGIS 3.2.0 'Bonn' Setup

--------------------------

The installer will download the North Carolina sample data set.

The archive is about 135 MB and may take several minutes to be downloaded.

The North Carolina will be **copyed** to:

C:\Users\user\Documents\GIS DataBase\North-Carolina.

Press OK to continue or Cancel to skip the download and complete the QGIS 3.2 installation without the North Carolina data set.

The text "copyed" should be spelled as "copied".

The source file where it should be fixed:
