

QGIS Application - Feature request #19366

Import layer now too many mouse clicks with Data source Manager

2018-07-09 05:20 PM - d quintao

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Data Source Manager	
Pull Request or Patch supplied:	No	Resolution: wontfix
Easy fix?:	No	Copied to github as #: 27194
Description		
<p>I import lots of vector layers.</p> <p>With the new Data source Manager a huge amount of mouse clicks are now needed: select file, Add, select sources, Close</p> <p>With Qgis There was no need to click on Add, from file selection it went straight to sources.</p> <p>Possible to bring back the import of different layers how it was, and keep the DSM for when its needed?</p>

- Resolution set to wontfix
 - Status changed from Open to Closed

This is a "won't fix". If you need to import many layers try the browser panel or dragging and dropping from a file explorer.
