

QGIS Application - Bug report #19369

Embed layers dialogue is an empty box + crash

2018-07-09 05:37 PM - d quintao

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	GUI	
Affected QGIS version:	3.2	Regression?: No
Operating System:	Debian 64bit	Easy fix?: No
Pull Request or Patch supplied:	Yes	Resolution:
Crashes QGIS or corrupts data:	Yes	Copied to github as #: 27197
Description		
When I select Layer > Embed layers and groups, the box shows up empty, and I click on the browse button. Couldn't it show the last used files? Or is it my Qt possibly at fault here? I just tried clicking in the blank area of that box and Qgis crashed.
