QGIS Application - Bug report #19381
[Digitizing] Some digitizing tools do not use the rubberband color to preview new geometry

2018-07-10 01:40 PM - Harrissou Santanna

Status:	Closed			
Priority:	Normal

Crashes QGIS or corrupts data:	No	**Copied to github as #:**	27209	

Description

Advanced digitizing Tools like Rotate, Move, Copy and Move, Simplify (for those I tested) do not use the rubberband color set in Settings
--> Options. They seem to follow a hard-coded red transparent color instead.
I think the Shape Digitizing tools neither use the rubberband color when drawing new features.
