

QGIS Application - Bug report #19382

Saga Snap points to lines only lets you select line feature layers at the points parameter instead of point feature layers

2018-07-10 02:12 PM - Jan Hendrik Petegem

Status:	Closed	
Priority:	Normal	
Assignee:		
Category:	Processing/SAGA	
Affected QGIS version:	3.2	Regression?: No
Operating System:	Windows 10	Easy fix?: No
Pull Request or Patch supplied:		Resolution:
Crashes QGIS or corrupts data:		Copied to github as #: 27210
Description		
Saga tool "Snap points to lines" only lets you select line feature layers at the points parameter instead of point feature layers. At the points parameters a point layer should be selectable. This renders the tool not functional.
